

Adjusting Appearance 2 - Color

Proloquo2Go (iPhone, iPad and iPod touch). In this short tutorial you will learn how to change the screen, text and background color of the complete Proloquo2Go vocabulary, of one page or of one button.

Adjusting Appearance of the Vocabulary

Launch Proloquo2Go by tapping on its icon. Go to Options View.

On an iPod touch or iPhone, Options View can be accessed by tapping the *Views* button (double overlapping squares) in the bottom left of the screen, and then tapping *Options*.

On iPad, the Options button **()** is the rightmost button on the toolbar.

Appearance Buttons - Advanced			
Regular Buttons			
Border Color	Color Code >		
Text Color	Black >		
Folder Buttons			
Same as Regular	ON		
Action Buttons			
Same as Regular	ON		

Tap the button in the top left corner of the Options screen twice to return to the Appearance settings. In the Buttons Section, tap *Advanced Options* and then *Text Color*. Select *Yellow* for the color of the text from Bright Colors.

Tap the button in the top left corner of the Options screen twice to return to Buttons - Advanced. Then tap *Border Color* (1) and select *Yellow* from Bright Colors.

Note: this will override the default Fitzgerald color coding.

Tap on *Appearance*. In the View section, tap on *Advanced Options*. Here you can set the number of rows, background color, button spacing, and alignment of your buttons (top or bottom). Tap on *Background Color* and select *Blue* from Bright Colors.

Repeatedly tap the button in the top left corner of the Options screen to return to the Appearance settings. In the Buttons section, tap on *Background Color*. Select *Red* from Bright Colors for the background color of the buttons.

Tap the button in the top left corner of the Options screen once to return to Buttons - Advanced. You can also change the text color, border color and background color of all Folder Buttons () or Action Buttons (2) by toggling Same as Regular to OFF.

Tap the button in the top left corner of the Options screen twice to return to the main menu of Options View, and then tap *Done* to confirm your changes. Note the new look of your Proloquo2Go screen.

When you are finished, you may want to undo your changes.

Adjusting Appearance of a Page

Navigate to a folder. (Note, in this example, we navigated to the Drinks folder). Then tap the *Edit* button (the pencil).

Back 😵 Drinks 1 2 🖴

View Ty	/pe	Grid	View >
Element Order Custom Order >			
Background Color Forest			
Backgr	ound Colo	r Forest	. • >
Backgr Button		r Forest Yellov	

Now tap *Button Color* **(1)** and select *Yellow* as the background color from Bright Colors for your buttons. Go back to the View options again by tapping on the *Button Color* button and then the *View* button on top of the Edit window.

The Edit window now appears. You can enlarge this window by tapping on the small arrow on the left.

You can now see the new look of your Drinks page. Tap the *Home* button.

Back 😵 Drinks 1 2 📇				
drink	apple juice	bottled water	chocolate milk	
	ange Proper	ties View	Done	
View Type Grid View > Element Order Custom Order >				
Background Color				
Button Color White >				
Button Display Default >				

Tap Background Color. Select Forest Green from Green Scale for the background color of the page. Then, on top of the Edit window, tap the Background Color button and then the View button to go back to the View options.

Notice how the other pages of the vocabulary still have the default appearance settings. You have only adjusted the appearance of the Drinks page.

Adjusting Appearance of a Button

Navigate to a folder (in this example we navigated to the People folder). Then tap the *Edit* button (the pencil).

Tap Background Color. ① Select Pastel Cyan from Pastel Colors for the background color of the button. Then tap the Background Color button and then the Properties button on top of the Edit window to go back to the Properties options.

The Edit window now appears. You can enlarge this window by tapping on the small arrow on the left.

Back 🏶 People 1 2 🚍	l
people Family	
	1
Border Color Dark Colors	l
Dark Red	١,
Dark Violet	Ľ
Dark Pink	Ľ
Dark Purple	1
Dark Blue	١
Dark Aqua	

Now tap *Border Color* and select *Dark Blue* from Dark Colors as the border color of the selected buttons. Go back to the Properties options again by tapping on the *Border Color* button and then the *Properties* button on top of the Edit window.

Back 🔮	People	ə 1	2 📇

	Proper	1977 9 ties Viev	
	Text to	Speak r	ame
name	Label n	ame	
name]		
Button F	Properties		
Word Ki	nd	_	Noun >

Select a button in the Grid (in this example we selected the "name" button). Tap the *Properties* tab. **1** Here you can edit the properties of a button. These settings will only apply to the button(s) you have selected.

Border Width lets you change the thickness of the border of the selected buttons. Tap *Done* on the top right of the Edit window to confirm your changes.

You can also select multiple buttons at once. A little checkmark appears to confirm your selection.

Notice how only the background color and border color of the selected buttons have changed.
