Match-Up Math

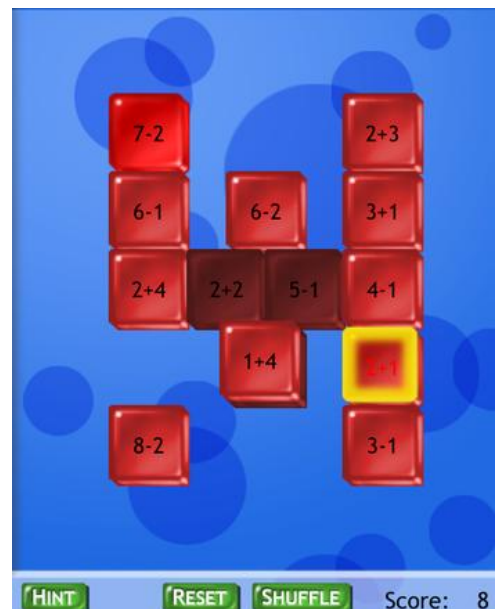

- Match your way to math success with this educationally rich app.
- In the same vein as many classic matching games, your mathematician clears tiles off the screen by matching problems and answers.
- If simple addition is too easy for your students, do not worry: *Match-Up Math* was made with long-term use and multiple grade levels in mind.
- Skills: Multiplication, Division, Decimals, Fractions, Subtraction, Addition
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later
- Price: \$2.99

URL:

<https://itunes.apple.com/us/app/match-up-math/id333229962?mt=8&ign-mpt=uo%3D4>

Operation Math

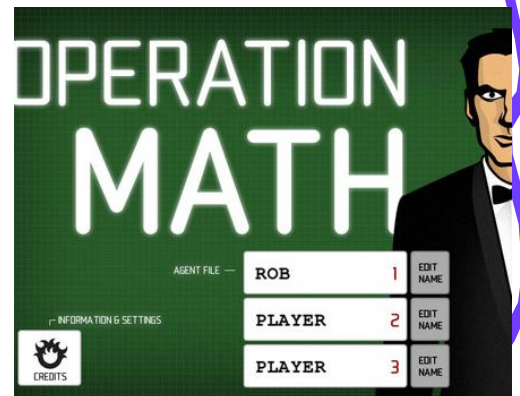

- Students must accept an addition, subtraction, multiplication or division mission to tackle. Correct answers help super spies open secret doors, defuse bombs and foil Dr. Odd's plot; answer incorrectly, however, and access will be denied.
- Exceptionally crafted missions, comic-like graphics, complex storylines, high-tech gear and new disguises, along with increasing difficulty, keep students coming back for more.
- Comprehensive intelligence for every quest is kept in a top-secret file at headquarters—perfect for tracking math progress. The game's multi-player mode allows for one-on-one math battles for rewards, completed missions and bragging rights.
- Skills: Subtraction, Addition, Division, Multiplication
- Requirements: Compatible with iPad. Requires iOS 4.0 or later.
- Price: \$2.99

URL:

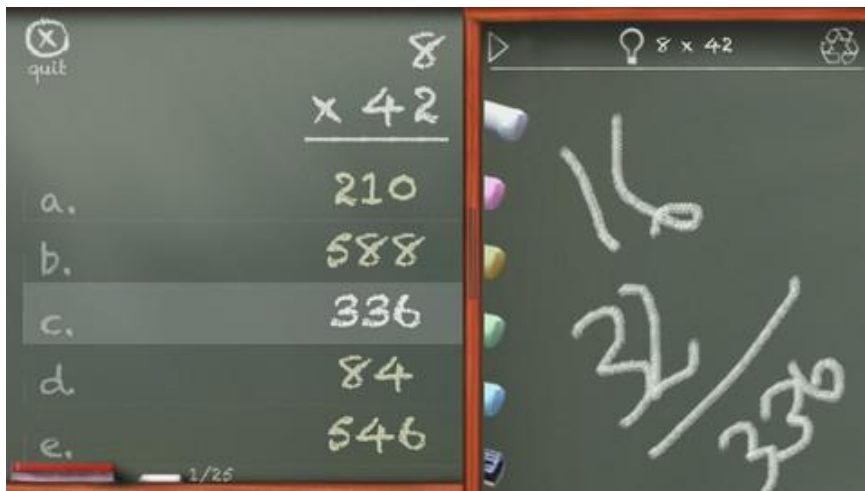

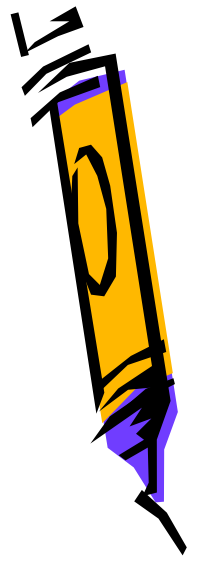

<https://itunes.apple.com/us/app/operation-math/id487387270?mt=8&ign-mpt=uo%3D4>

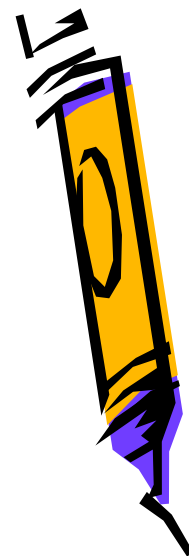

(Norman 2013)

MathBoard

- With a staggering array of settings and thorough help guides, this app represents an ambitious attempt to create the preeminent math teaching tool.
- The choices do not stop at multiplication or division, cubes or squares, easy or hard.
- MathBoard is a highly configurable math app appropriate for all school aged children. Beginning in kindergarten, with simple addition and subtraction problems, through elementary school where learning multiplication and division can be a real challenge.
- The options satisfy a wide range of students and skill levels, but they can be overwhelming for students.
- MathBoard would be best used in the classroom after a math teacher has tailored the settings to a specific purpose.

MathBoard

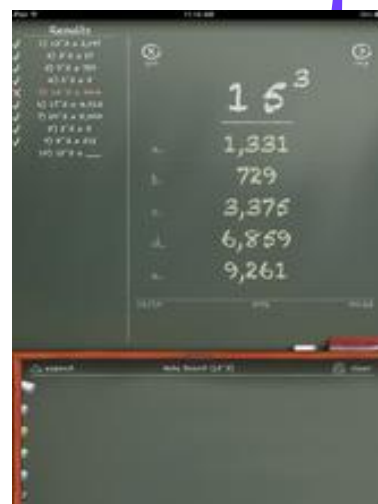

- Teacher Features:
 - Students can save results that a teacher could later check, lending a near test-like quality to this app.
- Skills: Addition, Subtraction, Algebra, Square Roots, Exponents, Division, Fractions & Decimals, Multiplication
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 5.0 or later.
- Price: \$4.99
 - To experience this app's versatility before dropping \$4.99 on it, try the free version, MathBoard Addition, which is limited to just addition problems but still boasts the same options and help guides.

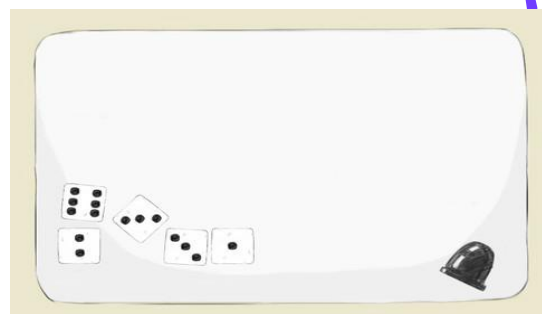

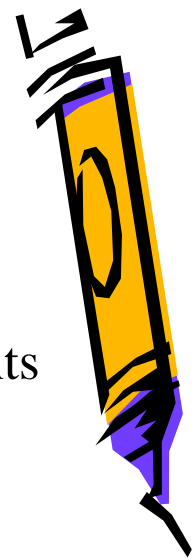

URL:

<https://itunes.apple.com/us/app/mathboard/id373909837?mt=8&ign-mpt=uo%3D4>

5 Dice: Order of Operations Game

- Math app that helps students enjoy practicing the order of operations. The game encourages students to use higher order thinking to solve the “target” number by working backwards given the answer but not the equation.
- Can be one or multiplayer promoting friendly competition. A whiteboard build into the game to make a way for students to work out problems. Games comes with printable games sheets, making preparation for lessons simple.
- Teacher Features:
 - Teachers can have progress reports sent to them making formative assessment easy
- Skills: Higher Order Thinking, Order of Operations, Addition, Subtraction, Multiplication, Division
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later.
- Price: Free

URL: <https://itunes.apple.com/us/app/5-dice-order-operations-game/id572774867?mt=8>

Elevated Math

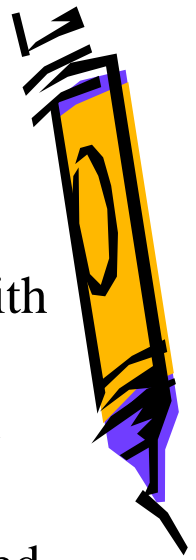

- Elevated Math provides initial instruction or intervention on math topics that cover place value, estimation, large digit addition all the way through Algebra I.
- Lessons are grouped into five math standards and are designed to conform to those recommended by the Common Core State Standards.
- Skills: Numbers, Operations, Measurement, Geometry, Algebra, Data Analysis, Probability
- Requirements: Compatible with iPad. Requires iOS 4.2 or later.
- Price: Free

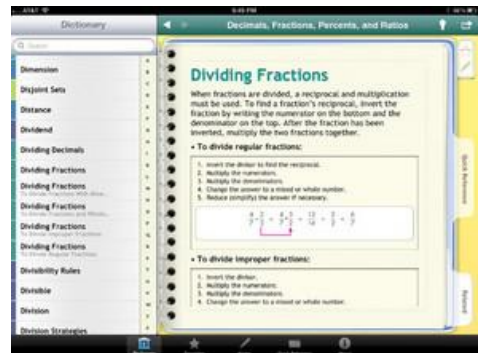

URL: <http://itunes.apple.com/us/app/elevated-math/id435995971?mt=8>

(Norman 2013)

Math Dictionary for Kids for iPad

- This math dictionary has 400 terms, presented with examples. At its heart, this app provides quick review of how to tackle most math problems that might come your kid's way.
- With 400 terms tackled, it's got most math covered. Subjects include measurement, algebra, geometry, fractions, decimals, statistics, probability, problem solving, and much more. This is quick reference—not deep instruction, but it just might help your students make it through their homework.
- Teacher Features:
 - Works well as a reference tool for refreshing topics prior to testing.
- Skills: Division, Multiplication, Math Review
- Requirements: Compatible with iPad. Requires iOS 4.0 or later.
- Price: \$2.99

URL: <https://itunes.apple.com/us/app/math-dictionary-for-kids/id454367958?mt=8&ign-mpt=uo%3D4>

(Norman 2013)

Science 360 for iPad

- The National Science Foundation Science 360 for iPad provides easy access to engaging science and engineering images and video from around the globe and a news feed featuring breaking news from NSF-funded institutions.
- The app features spectacular images, video, and breaking stories in scientific discovery.
- Skills: Science
- Requirements: Compatible with iPad. Requires iOS 4.2 or later.
- Price: Free

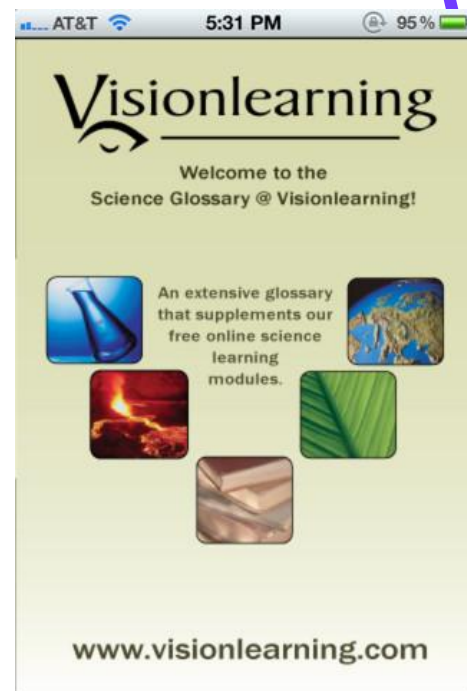

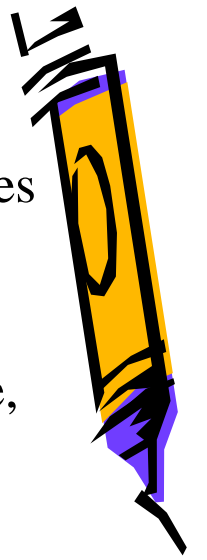

URL: <http://itunes.apple.com/us/app/science360-for-ipad/id439928181?mt=8>

(Norman 2013)

Science Glossary

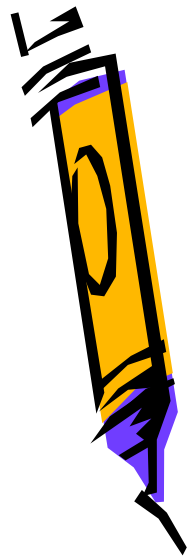

- A glossary of scientific terms and short biographies that support the science education website (www.visionlearning.com).
- All the definitions link to related terms and to free, detailed science learning modules.
- Students can use this glossary to look up difficult scientific terms and gain a clear understanding of these terms.
- Skills: Science
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: Free

URL: <http://itunes.apple.com/us/app/science-glossary/id331657060?mt=8>

(Norman 2013)

Blausen Human Atlas

- The Blausen English Human Atlas combines 3D medical animations in English with a cross searchable medical term glossary and detailed still images.
- Apps covers the following topics: cancer, circulatory, digestive, ear, endocrine, eye, immune, muscular, nervous, pediatric, reproductive, respiratory, skeletal, skin, and urinary systems.
- Make sure to use the “In App Purchase” option when buying any other Blausen products to save money.
- Requirements: Requires internet connection. Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.0 or later.
- Price: \$19.99

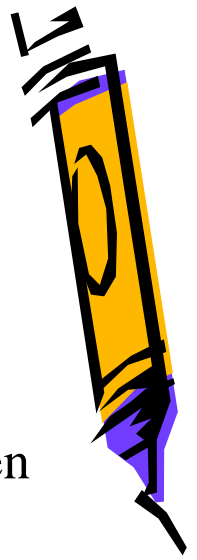

URL: <https://itunes.apple.com/us/app/blausen-human-atlas/id308338025?mt=8>

(Norman 2013)

Green Up

- App celebrates the earth by training the next generation of farmers.
- Starting in one of four landscapes, students learn how to nurture plants from seed to harvest, using virtual tools, seeds, fertilizer, water, wind and even bees to help pollinate their flora and fauna.
- Teacher Features:
 - This digital garden is ideal for group work in the classroom, as it promotes social interaction and decision-making to help plants thrive.
- Skills: Responsibility, Gardening, Plant Life Cycle, Parts of a Plant
- Requirements: Compatible with iPhone 3GS or later, iPod touch (3rd generation or later), and iPad. Requires iOS 5.0 or later.
- Price: \$1.99

URL:

<https://itunes.apple.com/us/app/green-up/id531316914?mt=8>

World of Goo

- In the *World of Goo*, tiny goo balls are looking for a safe passage through—and it's up to budding physicists to make it happen!
- This science-centered puzzle game features a slimy landscape, full of dangers for the poor sludge balls looking for safe passage to oil-slick pipes. Sound easy? Passage for the goo balls requires that players pay attention; build bridges or towers that are too narrow and the constructions will collapse.
- This complex and captivating brain game's addictive game play ensures students have fun while gaining a basic grasp of physics.
- Skills: Puzzles, Logic, Physics
- Requirements: Compatible with iPhone 3GS or later, iPod touch (3rd generation or later), and iPad. Requires iOS 3.2 or later.
- Price: \$4.99

URL: <https://itunes.apple.com/us/app/world-of-goo-hd/id401301276?mt=8&ign-mpt=uo%3D4>

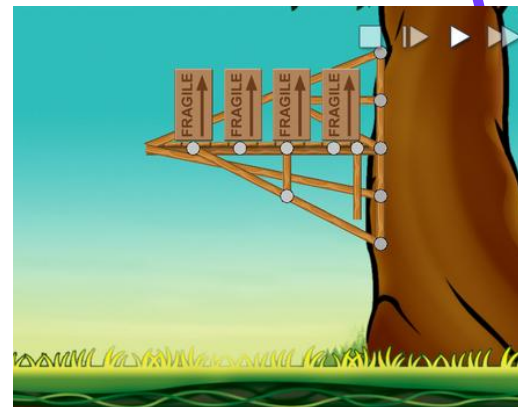

Simple Physics

- Create a simple tree house or go big and construct a skyscraper that can withstand tornado-force winds. Whatever the project, students will stretch and strengthen their knowledge of physics, engineering and money math.
- Specific project specs outline the structure that little architects must build to withstand whatever is thrown at it. Be warned; piecing together structures definitely isn't as easy as it looks! Design in blueprint mode and then stress-test creations to see if your building makes the grade. Points are earned for the integrity of the structure, and also for staying within project parameters.
- Skills: Money Math, Engineering, Physics
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: \$1.99

URL:

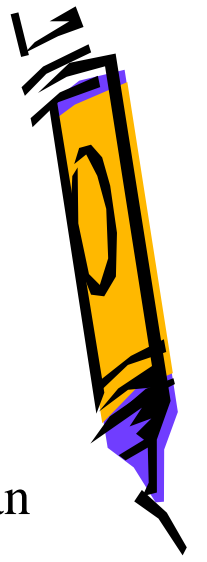

<https://itunes.apple.com/us/app/simple-physics/id408233979?mt=8&ign-mpt=uo%3D4>

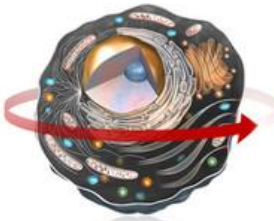

(Norman 2013)

3D Cell Simulation and Stain Tool

- The app allows students to create their own cell image and explore a 3D cell.
- Students can learn about the cell and all its structures using the new 3D Cell tool. Students can enjoy the ability to rotate the cell 360 degrees and zoom in on any cell structure. There are over 250 image combinations to explore.
- Skill: Biology, Biochemistry, Life Sciences
- Requirements: Compatible with iPad. Requires iOS 3.2 or later.
- Price: Free

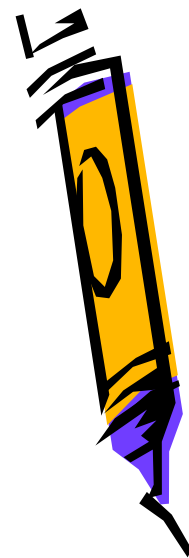

3D Cell	Stain Your Own Cell
	
<p>Learn about the cell and all its structures using our new 3D Cell tool. Enjoy the ability to rotate 360° and zoom in on any cell structure. Dive even deeper by learning about each cell's structure and view amazing images created using Molecular Probes' products!</p>	<p>Explore the fascinating world of cellular imaging with this new tool which enables the selection of different cellular structures and fluorophores. Create your own version of the perfectly labeled fluorescent cell!</p>
<p>Explore →</p>	<p>Explore →</p>

URL: <http://itunes.apple.com/us/app/3d-cell-simulation-stain-tool/id381129413?mt=8>

(Norman 2013)

The Elementals

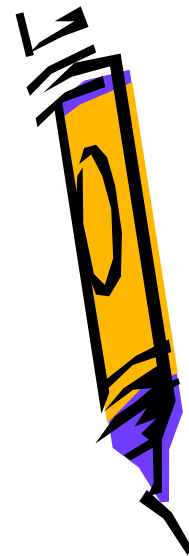

- A fun periodic table where every element has its own unique personality.
- Learn about each individual element and its properties.
- Skills: Chemistry, Elements
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later.
- Price: Free

URL: <http://itunes.apple.com/us/app/the-elementals/id383675775?mt=8>

(Norman 2013)

Periodic Table of the Elements

- This app contains a standard periodic table of elements. This app allows the student to select a chemical attribute and have the entire chart color coded to plainly show how the different elements vary with regard to selected traits.
- Students can select atomic number, chemical family, electronegativity, radioactivity, melting point, boiling point, and state (solid, liquid, or gas).
- Skills: Chemistry, Elements
- Requirements: Compatible with iPad. Requires iOS 3.2 or later.
- Price: Free

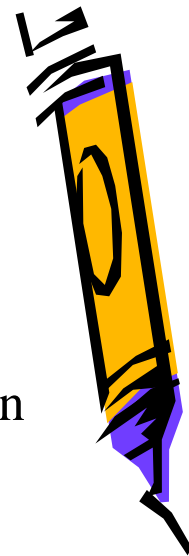

More Information about Iodine	
Element:	Iodine
Symbol:	I
Number:	53
Group:	VII A (Halogens)
Metal:	Non-Metal
Electronegativity:	2.10
Radioactive?:	No
Orbitals:	$(Kr)5s^2 4d^{10} 5p^5$
Melting Point:	114 C
Boiling Point:	115 C
Density:	4.93
% earths crust:	No measurable amount.
Ionization Energy:	10.45
Year of Discovery:	1811
Atomic Weight:	126.90
About the name:	
<small>The name iodine comes from the word <i>iosides</i> meaning violet. When heated this blue-black solid releases a violet vapor. (Iodine is one of the few substances that goes from a solid state directly to a gaseous state when heated, a process called sublimation.)</small>	
About the symbol:	
<small>The symbol for Iodine is I, the first letter of its name.</small>	
About the family:	
<small>Group VII A (Halogens) have one 'hole' in the outer shell. They desperately want to complete this shell, so they try to grab an electron and are highly reactive.</small>

(Norman 2013)

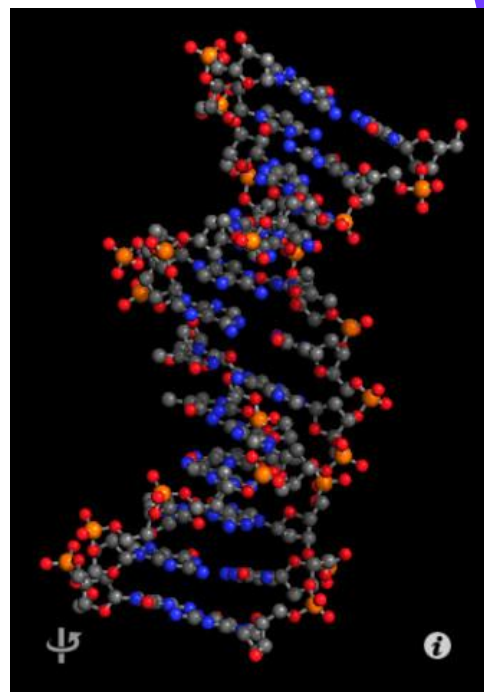

Molecules

- Molecules is an application for viewing 3D renderings of molecules and manipulating them using your fingers. You can rotate the molecules by moving your finger across the display, zoom in or out or pan the molecules.
- Students can download new molecules from the RCSB Protein Data Bank or NCBI's PubChem.
- Skills: Molecules
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.2 or later.
- Price: Free

URL:

<http://itunes.apple.com/us/app/molecules/id284943090?mt=8>

(Norman 2013)

Stack the Countries

- Astana is the capital of which country? If students answer Kazakhstan, they'll earn a country to add to their "stack"—a Tetris-like onscreen tower of animated country shapes.
- When the stack is high enough to reach the goal line, players earn a country reward. The questions are not always easy, but the challenge motivates students to learn the comprehensive range of geological facts presented. Both factual information, like capital cities and landmarks, and shape recognition skills are targeted.
- Young competitors will especially like the multi-player function, which pits players against each other to compete for countries, high scores and bragging rights.
- Skills: Community & Cultures, Geography, Shape Recognition, Map Skills
- Requirements: Compatible with iPhone 3GS or later, iPod touch (3rd generation or later), and iPad. Requires iOS 4.3 or later
- Price: \$1.99

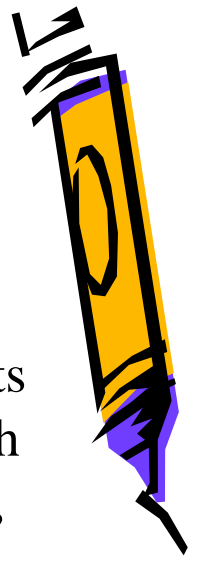

URL

<https://itunes.apple.com/us/app/stack-the-countries/id407838198?mt=8&ign-mpt=uo%3D4>

WORLD BOOK – This Day in History for iPad

- This Day in History for iPad is an interactive multimedia calendar that displays historical events for the current day or any selected day, along with related media such as photos, illustrations, music, and speeches.
- The app allows students to hear the national anthems of countries on the day they became a nation, listen to presidents' speeches on the anniversaries of their inaugurations, and play sound clips from famous artists on their birthdays.
- Skills: History
- Requirements: Compatible with iPad. Requires iOS 3.2 or later.
- Price: Free

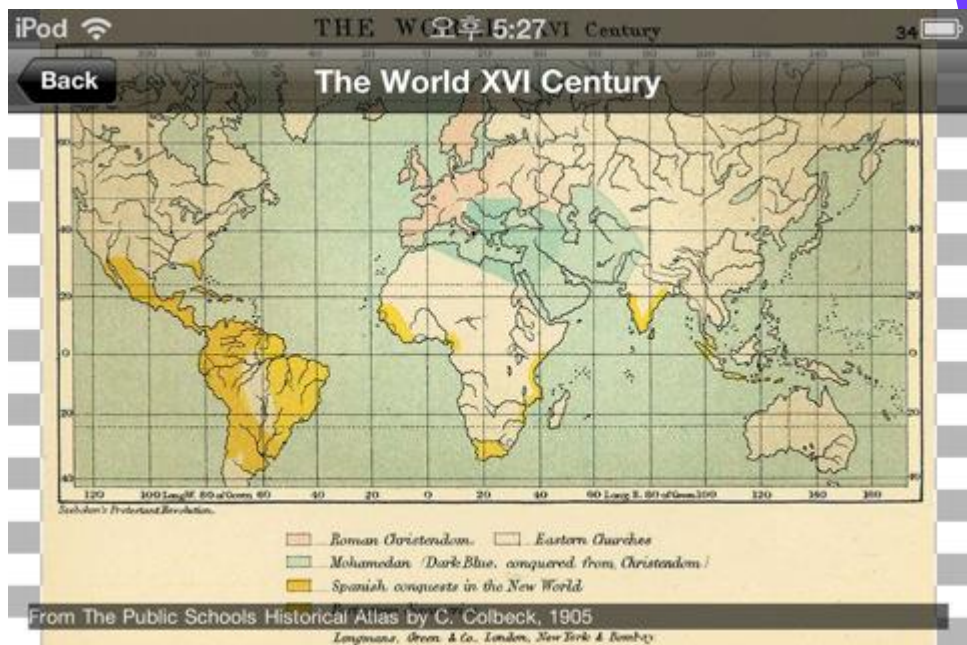

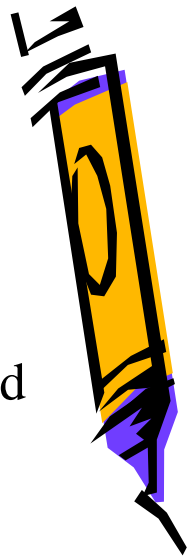

URL: <http://itunes.apple.com/us/app/world-book-this-day-in-history/id364739528?mt=8>

(Norman 2013)

History: Maps of World

- History: Maps of World is a fun and educational collection of high-resolution historical maps.
- App offers a wide variety of historical displays, support for Category/Era view, search options, and screen rotations.
- Skills: History, Geography
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.0 or later.
- Price: Free

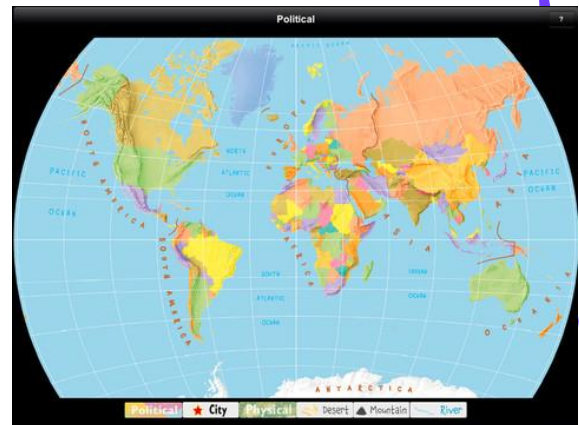

URL: <http://itunes.apple.com/us/app/history-maps-of-world/id303282377?mt=8>

(Norman 2013)

Kids World Maps

- What are the major deserts or the world, the highest mountains, or the longest rivers. The Kids World Maps app will help students answer these important geographical questions.
- The app is a great way for students to discover more about the World's geographical features. The Kids World Maps app contains 6 World Maps focusing on physical coloring, larger cities, deserts, mountains, and rivers.
- Skills: Geography
- Requirements: Compatible with iPad. Requires iOS 4.3 or later.
- Price: Free

URL: <http://itunes.apple.com/us/app/kids-world-maps/id428955952?mt=8>

(Norman 2013)

National Geographic World Atlas

- All National Geographic maps are in HD for retina-displays, giving you the best viewing experience possible. The infographics enhance each country's Flags and Facts section.
- Map offers up to the minute weather, check the latest currency rates, or use the currency calculator to convert from one currency to another.
- Skills: Geography
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 5.0 or later.
- Price: \$1.99

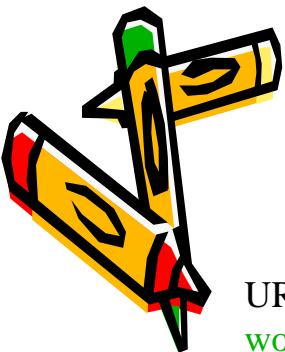

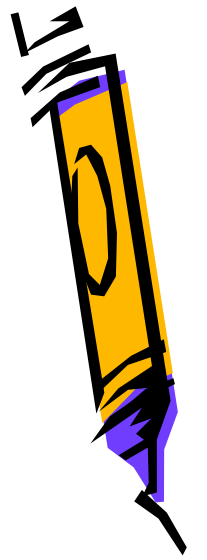

URL: <http://itunes.apple.com/us/app/world-atlas-hd/id364733950?mt=8>

(Norman 2013)

2013 World Factbook

- This app is the complete CIA World Factbook at your students fingertips, including extensive information on more than 250 countries and locations throughout the world. No internet access is required.
- Skills: History, Government, Economy, Geography, Military, Communications, Transportation
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: \$0.99

URL: <http://itunes.apple.com/us/app/2010-world-factbook/id307337503?mt=8>

(Norman 2013)

Constitution for iPad

- Provides the full constitution with great search options for any information contained within the document.
- Great way to learn and review individual sections of the Constitution with information about each of the signers.
- Requirements: Compatible with iPad. Requires iOS 5.1 or later.
- Price: Free

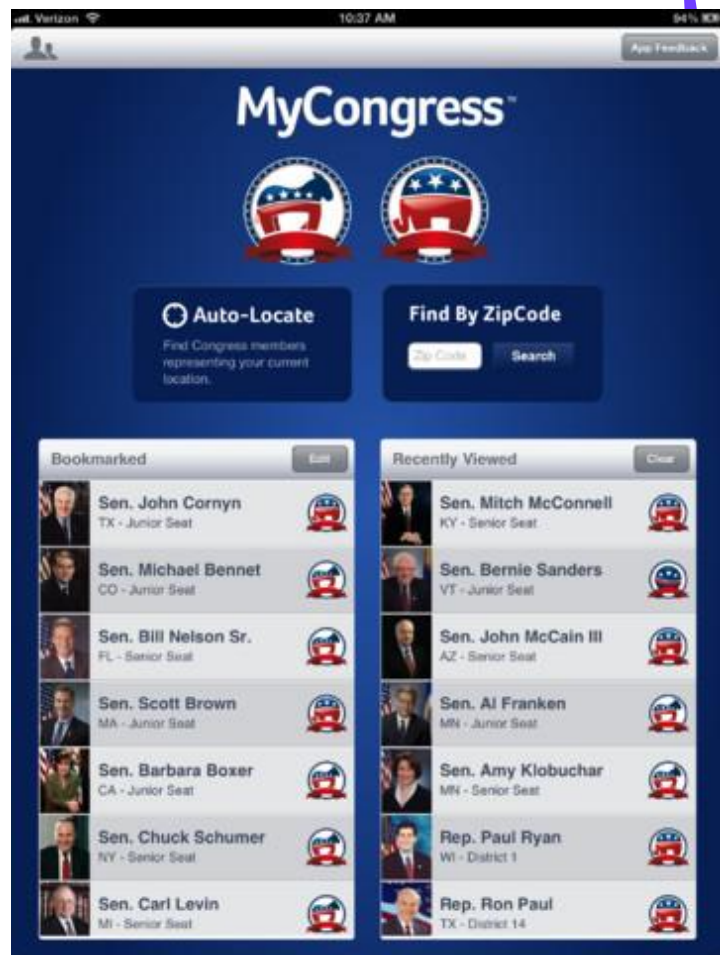

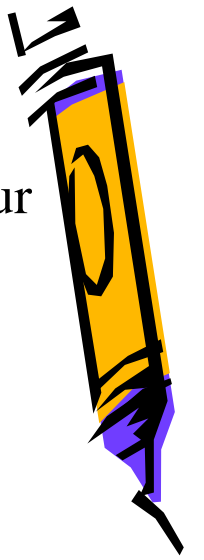

URL: <https://itunes.apple.com/us/app/constitution-for-ipad/id363287472?mt=8>

(Norman 2013)

MyCongress

- MyCongress gives detailed information about your elected U.S. Congressional officials. Track news, videos, and Twitter feeds of officials.
- Gives ways to communicate with the elected officials.
- Skills: Government
- Requirements: Compatible with iPad. Requires iOS 5.0 or later.
- Price: Free

URL:

<http://itunes.apple.com/us/app/mycongress/id364897048?mt=8>

Spelling Games Grade 6 HD

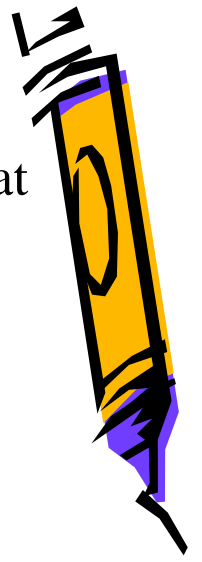

- Reading Eggs Spelling Grade 6 is a fun and motivational apps that teaches students how to spell with 10 interactive spelling games.
- Each game reinforces a different literacy skill, including proofreading, word endings and plurals, compound words, syllables, etc.
- The app helps to boost student's confidence with spelling, help expand their vocabulary, and develop their key literacy skills as they progress through an extensive collection of challenging words, activities, and contexts.
- Skills: Encoding, Proofreading, Compound Words, Word Endings, Homonyms, Meanings, Syllables, Phonics, Vocabulary, Spelling
- Requirements: Compatible with iPad. Requires iOS 4.0 or later.
- Price: \$2.99

URL: <https://itunes.apple.com/us/app/spelling-games-grade-6-hd/id561606887?mt=8>

(Norman 2013)

Grammar App HD

- The Grammar App HD uses a new approach – that an interactive book with an easy to learn format, and a simple step by step guide.
- App features 200+ tutorials, video-tutorials and practice exercises; and 1000+ exercises and questions for revision and to test your understanding.
- The app can help improve usage of English grammar, word selection, and vocabulary. It is designed to provide questions with a focus on improving scores on the English proficiency test.
- Skills: Parts of Speech, Articles & Tenses, Verbs, Adjectives, Adverbs, Infinitives, Prepositions, Pronouns, Interjections, Punctuation
- Requirements: Compatible with iPad. Requires iOS 4.2 or later.
- Prices: \$0.99

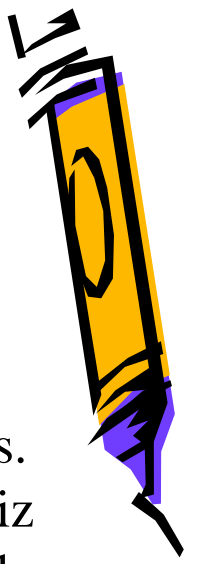

URL: <https://itunes.apple.com/us/app/grammar-app-hd-by-tap-to-learn/id379790077?mt=8>

(Norman 2013)

Grammar Jammers Middle Edition

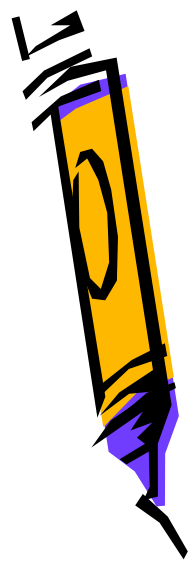

- Catchy animated songs and rhymes make English language arts exciting. Grammar Jammers animations will have you tapping your toes to the beat while learning grammar usage and mechanics. Each animation unlocks a quiz. Answer all the quiz questions for all the Grammar Jammers topics and unlock an interactive reward.
- A reset feature allows for the data to be cleared and the game to be reset, ready for the next user.
- Skills: Adjectives, Adverbs, Capitalization, Conjunctions, Contractions, Nouns, Prepositions, Pronouns Punctuation, Sentences, Verbs
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.1.2 or later.
- Price: \$2.99

URL: <https://itunes.apple.com/us/app/grammar-jammers-middle-edition/id386394517?mt=8&ign-mpt=uo%3D4>

(Norman 2013)

Middle School Vocabulary Prep

- Middle School Vocabulary Prep is not the most exciting app in the world, but it has a big database of practice words, word quizzes and sample tests, and it gets the job done.
- This is a serious study tool appropriate for students as they move into the middle school years. The assessment tests and word lists are on the difficult side for fifth graders, but on target for traditional middle school, grades 6 through 8.
- The challenge is in the vocabulary, not using the app, which is very user-friendly. The word lists are extensive and tests are different every time.
- Teacher Features:
 - There are some neat teacher features like support for multiple students and an administrator profile, but they require a paid upgrade.
- Skills: Vocabulary
- Requirements: Compatible with iPad. Requires iOS 3.2 or later.

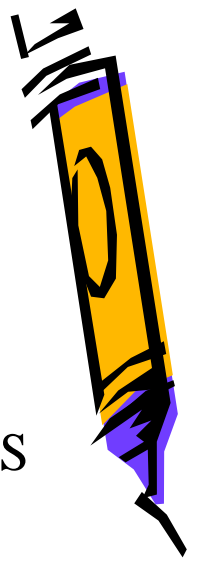

Price: \$2.99

URL: <https://itunes.apple.com/us/app/middle-school-vocabulary-prep/id394041763?mt=8&ign-mpt=uo%3D4>

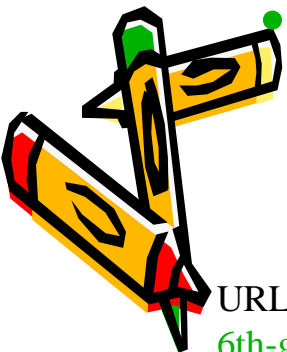

(Norman 2013)

iTooch 6th Grade Language Arts

- App contains more than 1,590 exercises and is a new and fun way of practicing and learning Language Arts for 6th Graders. It is the largest collection of educational activities based on the US National Common Core Standards.
- iTooch apps are a full learning solution which helps parents, teachers and students to identify and address their learning needs in a fun and motivating way.
- It is a terrific app that covers a lot of ground concept-wise. This app combines a no-frills approach to content while still providing the student with an exciting learning experience. There are lesson summaries available when needed for the teachers.
- Skills: Grammar, Vocabulary, Writing, Reading Comprehension
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 5.1 or later.

Price: \$4.99

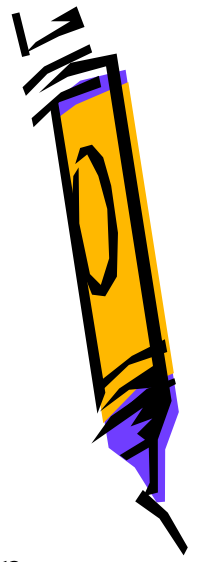

URL: <https://itunes.apple.com/us/app/itooch-6th-grade-language/id521723371?mt=8>

(Norman 2013)

GrammarPrep – Subjects and Verbs

- Grammar Prep - Subjects and Verbs explains and drills subject-verb agreement issues in a no-frills, academic style.
- Students fill in the blanks of sentences with the correct form of a verb—singular or plural. The app contains a variance in types of sentences, which provides lots of practice with the trickiest subject-verb agreement issues our already tricky language offers.
- While the educational value is sound, the app wears out its welcome quickly.
- Skills: Grammar, Subject-Verb Agreement
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later.
- Price: \$3.99

URL: <https://itunes.apple.com/us/app/grammarprep-subjects-verbs/id372370020?mt=8&ign-mpt=uo%3D4>

(Norman 2013)

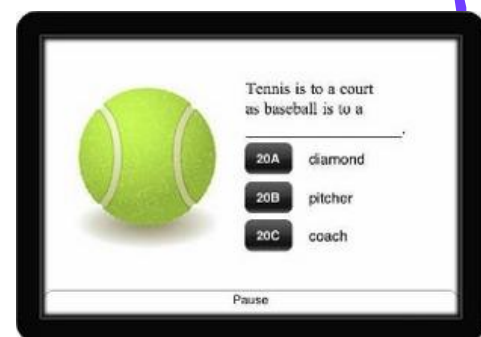

Analogies

- Analogies provides a great way to help build your student's confidence with analogies at an early age, using a bingo-like game format to keep them engaged as they tackle synonyms, antonyms, descriptive words, part-to-whole analogies and more.
- The full version offers five different levels of difficulty, three modes of play (practice, single-player and multi-player) as well as 375 multiple-choice questions and analogies. A half-price lite version is available with two modes of play (practice and single-player) and 125 questions.
- Teacher Features:
 - The score reporting feature holds students accountable for their work by emailing periodic progress reports to educators.
- Skills: Grammar, Vocabulary, Analogies
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: \$4.99 - \$8.99

URL:

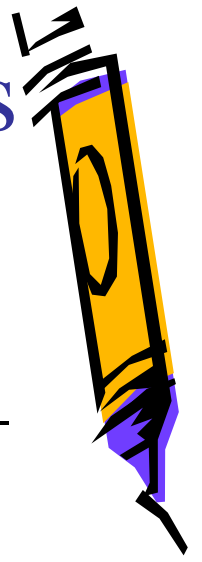

<https://itunes.apple.com/us/app/analogies/id427076278?mt=8&ign-mpt=uo%3D4>

Mastering English Punctuation

- Whether your students want to master writing skills, or are learning English as a second language, punctuation is absolutely crucial in mastering the English language. Without it, sentences will never sound as they should, and your writing can even be misunderstood.
- In a series of 102 multiple choice questions, ABCs of punctuation will let the students know exactly where they stand in knowledge of punctuation, giving a rating of precise skill level. It will correct the user every step of the way, teach why answers are right or wrong, and provide the proper explanations. It will offer little known facts about punctuation, and give practical tips to make punctuation and writing stronger.
- Skills: Punctuation
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 2.0 or later.
- Price: \$3.99

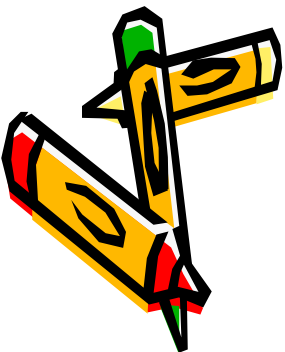

URL:
<https://itunes.apple.com/us/app/mastering-english-punctuation/id307304914?mt=8&ign-mpt=uo%3D4>

Practice English Grammar 2

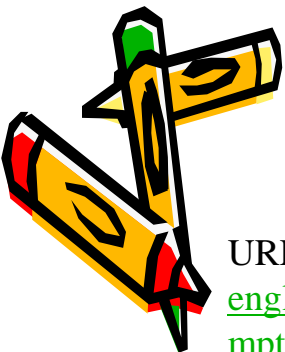

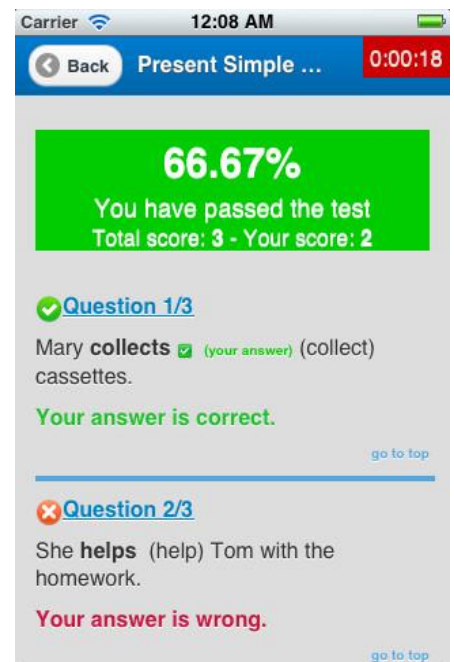

- Practice English Grammar helps students learn English grammar with the principle “Practice makes perfect”.
- Practice English Grammar contains many pages of grammar lessons explaining the grammar topics of the tests. With over 500 questions in 16 topics, this app helps students practicing the basic usage of English grammar.
- Tests in “Practice English Grammar” have not only multiple choice questions but also other interactive question types such as multiple response, matching, fill in the blank, text response numeric response, and some questions contain media content.

Practice English Grammar 2

- Teacher Features:
 - Comprehensive statistics help teachers monitor the students progress.
- Skills: Adjectives, Adverbs, Comparatives, Superlatives, Gerund, Infinitive, Modal Verbs, Noun, Past Simple, Past Continuous, Present Continuous, Present Simple, Pronoun, Reported Speech, Some & Any, Article, Conjunctions
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.

Same Sound Spell Bound (Homophones)

- Same Sound Spellbound is an adventure designed to help the player understand homophones. You begin your adventure choosing to play as either Luna or Leo, young magicians at Magic School, beginning to master the magic of words. In this lesson, Luna and Leo must correctly identify the homophone which best completes the puzzle sentence, in a given time.
- If the player drags and releases the right word into the spell book then the animal statue is brought to life. If the player drags and releases the incorrect word then the animal statue crumbles to dust.
- The game incorporates learning synonyms attuned to the particular grade level, based upon excerpts from grade-appropriate reading materials.
- Skills: Homophones
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.1.3 or later.
- Price: \$0.99

Middle School Writing- Expressing Basic Ideas

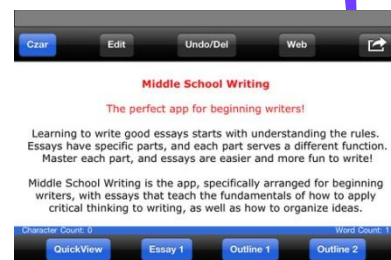

- Middle School Writing uses a scaffolding, query based process to teach students how to think reflexively; how to develop strong, purposeful arguments, and how to structure essays.
- The app is about learning critical thinking and writing; it is not solely about outlining essays. The critical thinking behind outlines is what matters, and it is this thinking process that the content teaches.
- The app explains the fundamental critical thinking aspects of outlining and succinctly presents examples of several different outline formats.
- Skills: Outlining, Critical Thinking, Web Research Skills, Safe Internet Use Habits, Email Etiquette, Essay Structure, Types of Essays
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later.

Price: \$18.99

Reading Comprehension – Solar System

- This galactic app features 17 non-fiction eBooks about the planets, moons, asteroids, comets and telescopes of our solar system. Even students with super-short attention spans can soak up enough interesting information in these short stories (roughly 300 to 500 words long) to tackle multiple-choice and yes-or-no questions—as well as vocabulary word matching—relating to each passage.
- The text, while factual, is textbook-style and dry despite the kid-friendly space theme; however, this problem can be remedied by uploading customized stories and questions into the app.
- Students will build critical comprehension skills and expand their vocabulary with the visual cues highlighting important terms. The format is great for visual learners, but audio learners may struggle due to the lack of a voice-over option.

Reading Comprehension – Solar System

- Teacher Features:
 - Detailed progress reports allow insight into which kinds of questions each student has trouble with, while the ability to create customized lessons allow educators to give struggling students the specific help they need.
- Skills: Interactive Stories, Vocabulary, Solar System, Reading Comprehension
- Requirements: Compatible with iPad. Requires iOS 3.2 or later.
- Price: \$2.99

Our Solar System

The Solar System consists of our sun, eight planets, and many smaller objects, such as moons, asteroids, comets and *dwarf planets*. The Sun is at the center of the solar system. The word *Solar* means *of the Sun*.

The Solar System formed more than four billion years ago, from a cloud of dust and gas called a *nebula*, from the Latin word for cloud. Nearly all the mass of the solar system is in the Sun.

The four planets closest to the Sun are Mercury, Venus, Earth, and Mars. These are called the *terrestrial*, or earth-like planets. They are mostly rock and metal.

The area between Mars and Jupiter is the Asteroid Belt, because of the many asteroids there. Asteroids are large chunks of rock or metal. The asteroids may be remnants of a planet that was destroyed in a collision.

The asteroid belt lies between which two planets?

- Mars and Jupiter
- Earth and Mars
- Jupiter and Saturn
- Mercury and Venus

Question Builder

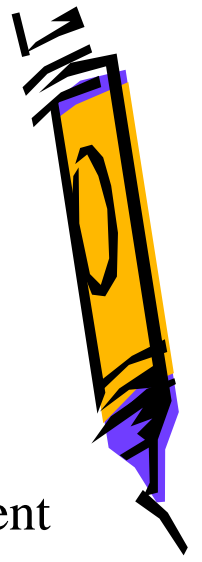

- Answering the “who, what, where, when, why” of a story subject is the basic foundation for gathering information. Give students a solid understanding of the Five Ws with this simple question-and-answer app.
- A clear voice-over option helps reinforce correct answers and encourages students who are stumped to keep trying. Three levels of play, color-coding and text options can help students master these foundational questions by starting with lots of cues, and making problems increasingly more difficult as students progress.
- Teacher Features:
 - The Parent Center is not only for moms and dads—use this feature for up-to-date information about how student skills are progressing using the app.
- Skills: Grammar, Abstract Questions, Five Ws, Reading Comprehension
- Requirements: Compatible with iPad. Requires iOS 4.3 or later.

Price: \$5.99

Explain Everything

- Forget PowerPoint; in today's wired world, students can create multimedia presentations by tapping, dragging and swiping anything from images and text to annotation and object movement. Explain Everything is a modern app that helps whiz kids pull together a host of different content and ideas to create a presentation.
- Record audio, add music, insert pictures, insert video, and then use a virtual laser pointer to direct your viewers through hi-tech charts, graphs, images and other data
- Creative kids will love flexing their imaginations to come up with cool ways to wow others with their organized ideas.
- Skills: Storytelling, Collaboration, Oral Presentations
- Requirements: Compatible with iPad. Requires iOS 5.1 or later.
- Price: \$2.99

Inspiration Maps

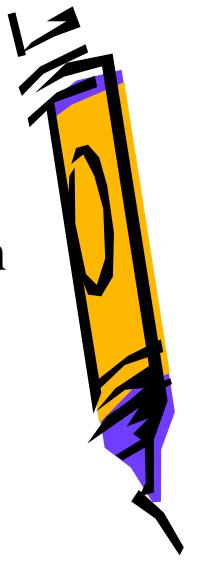

- Students often have trouble organizing their thoughts in order to structure writing and understand what they're reading; establish organizational skills early with this intuitive, visually appealing app.
- Inspiration Maps offers students the canvas and tools with which to organize everything from class notes and study materials to essay outlines and Venn diagrams.
- This app comes equipped with charts, diagrams and organizers of all kinds, and allows the option to create a customized organizer to fit a student's specific needs.
- Skills: Organization, Brainstorming
- Requirements: Compatible with iPad. Requires iOS 4.0 or later.
- Price: \$9.99

STUDYBLUE Flashcards

- Serious studiers will appreciate this virtual flashcard stack, just waiting to be customized with text, pictures and audio to study anything from state capitals to math equations.
- Features allow kids to focus on problem areas and see their progress charts and graph that map their progress visually, as well as a summary of each study session and the option to tackle cards they've missed.
- Students can study independently or pair up with classmates; friends can even share their flashcards with peers for a collaborative study environment.
- Teacher Features:
 - Features allow for classmates to share study materials, quiz each other and collaborate online.
- Skills: Vocabulary, Rote Memorization
- Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: Free

WordWeb Dictionary

- It's hard to knock a free app that allows for on-the-go word lookup. This one gives students the ability to enter vocabulary words, and assuming they have WiFi access, it connects them to Wikipedia, Wiktionary, Answers.com, or Google.
- The app provides pronunciation help, simple definitions, synonyms (linked to definitions), usage examples (in the form of sentence fragments or phrases), and information on the word's origins if available.
- Skills: Vocabulary, Parts of Speech, Spelling
- Requirements: Requires WiFi access to use. Compatible with iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.
- Price: Free
